### formati video supportati

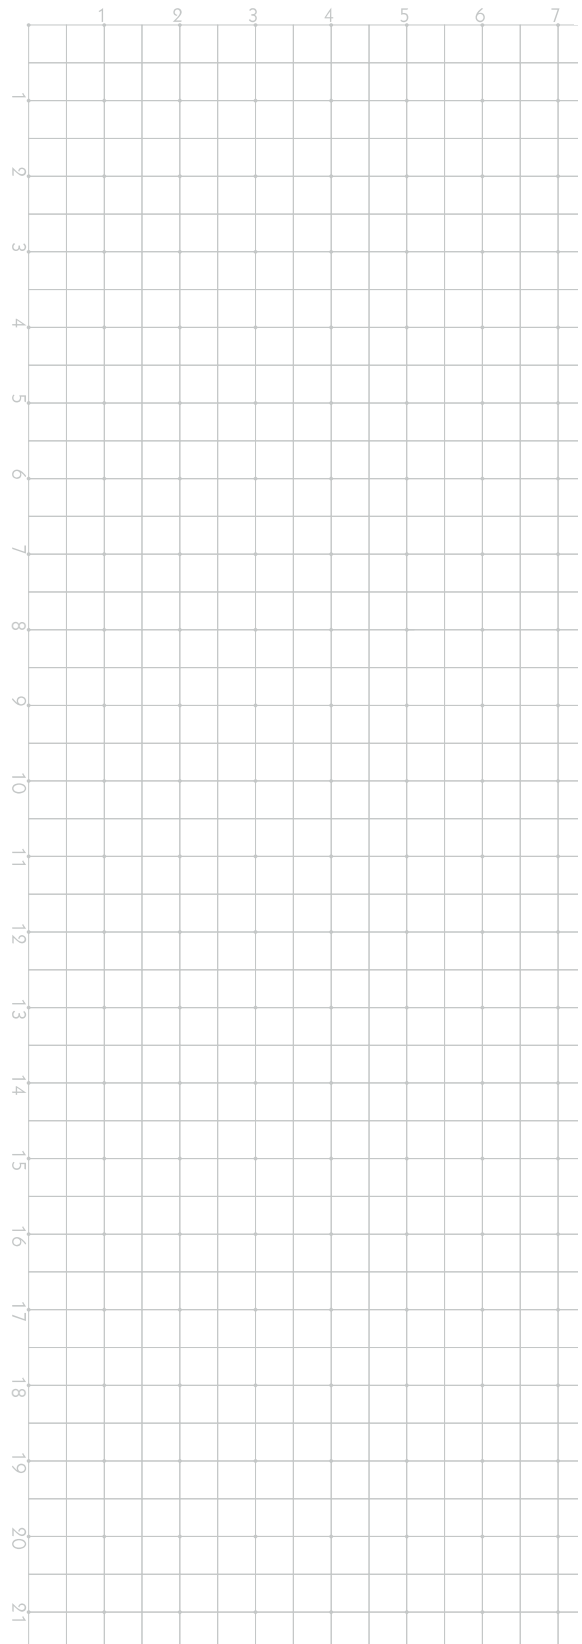

**IT** poiché esiste una grande varietà di formati video, le forniamo un elenco dei formati supportati dal monitor. se un video non può essere riprodotto o se sullo schermo appare il messaggio "file non supportato", sarà necessario effettuare precedentemente una conversione (chiamata anche transcoding) del file in oggetto. su internet troverà diversi programmi per effettuare tale operazione.

### unterstützte videoformate

**DE** da es eine vielzahl von videoformaten gibt, finden sie anbei eine liste der vom monitor unterstützten formate. sollte ein video nicht dargestellt werden, oder der hinweis „file not supported“ auf dem bildschirm erscheinen ist eine konvertierung (auch transcoding genannt) nötig. hierzu findet sich im internet eine vielzahl von kostenlosen tools, die für unterschiedlichste dateiformate ausgelegt sind.

### specifications

**EN** since there is a great variety of video formats, we provide a list with formats supported by monitor. If a video cannot be played or if the message "file not supported" appears on the screen, a conversion (also called transcoding) is necessary. you can find a lot of tools in the internet, which are suitable for various file formats.
